TOB-59

U.S. DEPARTMENT OF AGRICULTURE AGRICULTURAL MARKETING SERVICE

AUGUST 1972

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced principally in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced principally in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced principally in the coastal sections of South Carolina, the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced principally in southern Georgia and northern Florida.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced principally in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced principally in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

Type 31: Burley; produced principally in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Type 32: Southern Maryland; produced principally in five counties of southern Maryland -- Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced principally in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced principally in Lancaster County, Pa., and the adjoining counties.

Type 42-44: Ohio filler; produced principally in the Miami Valley section of Ohio and extending into Indiana.

Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba

Type 82: Indonesia

Type 83: Philippine Islands

Type 84: Brazil

Type 85: Colombia

Type 86: Dominican Republic

Type 87: Paraguay

Type 88: Mexico

Type 89: Other foreign-grown cigar leaf

Type 91: Foreign-grown Oriental and Aromatic Type 92: Foreign-grown flue-cured

Type 93: Foreign-grown burley

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/
Total leaf tobacco stocks smaller than a year ago

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,186 million pounds as of July 1, 1972. This was 185 million pounds less than the figure a year earlier. Smaller stocks of flue-cured and burley accounted for most of the decline. Stocks of foreign-grown cigarette and smoking tobacco registered the only substantial gain.

About 32 million pounds, consisting mostly of Maryland and Puerto Rican tobaccos were marketed by growers during the April-June quarter.

Stocks as of July 1, 1972 included 971.7 million pounds (farm-sales-weight) of leaf tobacco under Government loans--291 million pounds below the previous July 1. Large sales of flue-cured accounted for the biggest share of the decline. The breakdown on current loan stocks was:

	Million pounds
flue-cured	617.8
burley	333.4
fire-cured	1.8
dark air-cured	13.1
cigar leaf	5.4

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight pasis). This report is issued quarterly.

^{2/} All Government loan stocks are reported by growers' cooperatives, which are considered dealers for stocks reporting purposes.

CIGARETTE-LEAF STOCKS

All types decline.

Stocks of <u>flue-cured</u> tobacco on July 1, 1972, totaled 1,910 million pounds-66 million below reported holdings last year. The 1971 marketing year for flue-cured ended on July 1 with total disappearance indicated at 1,143 million pounds. Domestic consumption at 663 million pounds was about 23 million above the pre-vious year. Exports were 480 million pounds compared to 534 in 1970-71.

Burley stocks this July 1 were reported at 1,390 million pounds -- 98 million below the holdings of July 1, 1971.

Maryland inventories totaled 61 million pounds--2 million less than July 1. Auction sales of the 1971 crop ended on June 23 with 27.7 million pounds being sold.

Foreign-grown cigarette and smoking tobacco stocks were reported at 423 million pounds on July 1, 1972. This was 23 million more than was on hand a year earlier.

DARK TOBACCO STOCKS

All types decline.

Stocks of <u>fire-cured</u> leaf, reported at 73 million pounds on July 1, 1972, were 5 million below holdings on the previous July 1. Fire-cured stocks on this July 1 were as follows: Virginia, 10.3 million pounds; Eastern District Kentucky and Tennessee, 53.8 million; and Western District, 9.4 million.

Dark air-cured holdings of 54.3 million pounds were 3.5 million below the July 1 inventories last year. Stocks this year by types were: One-Sucker, 33.3 million pounds; Green River, 17.7 million; and Virginia sun-cured, 3.3 million.

CIGAR LEAF STOCKS

Domestic and foreign-grown stocks decline.

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 174.0 million pounds on July 1, 1972. This was 29.2 million less than the holdings of last July 1. Wisconsin and Connecticut Broadleaf had larger inventories, but all other types declined. Deliveries of the 1971-72 crop of Puerto Rican tobacco were completed during the quarter. Stocks of foreign-grown cigar leaf as of July 1 amounted to 93.8 million pounds--8.6 million below holdings of a year earlier.

CIGAR LEAF STOCKS -- Cont'd.

Inventories of cigar-filler types on this reporting date totaled 102.3 million pounds--down 23.6 million from the previous July 1. Individual type totals were: <u>Pennsylvania Seed-leaf</u>, 79.1 million; <u>Ohio filler</u>, 8.3 million and <u>Puerto Rican</u>, 14.8 million pounds.

<u>Cigar binder</u> stocks totaled 51.9 million pounds on July 1, 1972--a small gain of 1.6 million from the same date last year. Stocks by types were:

<u>Connecticut Broadleaf</u>, 5.6 million pounds; <u>Connecticut Valley Havana Seed</u>,

2.3 million; <u>Southern Wisconsin</u>, 22.5 million, and <u>Morthern Wisconsin</u>, 21.5 million pounds.

Shade-grown cigar wrapper stocks as of July 1, 1972, totaled 19.8 million pounds consisting of 13.2 million pounds of Connecticut Valley Shade and 6.7 million pounds of Georgia-Florida Shade. Both types declined. The marketing year which ended on July 1 indicated a total combined disappearance of 14.6 million pounds for these types. Exports were 3.4 million pounds giving a domestic disappearance of 11.2 million.

Stocks of <u>Guban</u> leaf, reported at 0.5 million pounds dropped 0.2 million from a year ago. <u>Philippine Island</u> stocks were down 4.8 million pounds at 33.9 million. <u>Indonesian</u> leaf stocks this July 1 were 4.3 million pounds; <u>Brazilian</u>, 8.0 million; <u>Colombian</u>, 11.1 million; <u>Dominican Republic</u>, 12.0 million; <u>Paraguay</u>, 4.1 million; <u>Mexico</u>, 6.0 million; and other <u>foreign-grown</u>, 13.8 million pounds.

TOBACCO SHEET

Leaf in sheet declines.

Stocks of leaf represented in inventories of "tobacco sheet" totaled 29.9 million pounds (reported weight) compared with 32.0 million a year earlier. Of the total in "sheet" this July 1, 27.6 million pounds were for use in cigarette and smoking tobacco, and 2.3 million for cigar binder and wrapper.

TABLE 1.--Factors for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.
3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

TABLE 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, July 1, 1972, compared with other quarters 1/

^{1/} Totals include stocks of leaf tobacco sheet. See separate reporting in table 4.
2/ Type 73 is defined as all domestic tobacco not otherwise classified.
3/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.

If Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters

Detail may not add to total because of rounding.

on the quarterly reporting once on which stocks.

2/ The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign minufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to rewision.

^{1/} Subject to revision.

4/ August 1 estimate, U. S. Crop Reporting Board, SRS.

TABLE 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reportings in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are dealers' holdings.

4/ Includes stocks on the island of Puerto Rico.

 ⁴ Includes stocks on the island of Puerto Rico.
 5/ For explanation of stocks included in this classification see footnote 2 on page 7.

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1971, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less then 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 2 on page 7.
